About this Report

As part of its participation in The National Citizen Survey™, the City of Cañon City conducted a mailed survey of 1,500 residents. Surveys were mailed to randomly selected households in July 2016 and data were collected through September 2, 2016. After the official data collection period was over and the data were reported (see the report, *The National Citizen Survey: Community Livability Report, Cañon City, CO, 2016*), the City made available a web-based survey to its residents through a link on the City's website. Visitors to the site were able to complete the survey from August 19 to September 20, 2016 and 702 surveys were received.

This report contains the results of this administration of the web-based survey and have not been weighted to current population estimates of Cañon City.

Complete Survey Responses

The following pages contain a complete set of responses to each question on the survey, excluding the "don't know" responses. The percent of respondents giving a particular response is shown followed by the number of respondents (denoted with "N=").
