

# City of Cañon City

Community Development Department  
Planning & Zoning Division

## REGISTERED LAND SURVEYORS & Other Development Professionals

Registered land surveyors are sometimes necessary to help a property owner legally establish property lines, create a subdivision plat, or draft a metes & bounds legal description for a parcel. Additionally, certain land use applications in the City require professional land surveys and other development services. Cañon City provides the following list as a service to the community.

Please be advised that the City neither endorses nor recommends any surveyor or development consultant. Registered land surveyors and other development professionals may also be found on-line and in phone books.
